7 New Features You Will Like In Version 7

1. **AdventistGiving Import:** Downloaded the AdventistGiving report into Jewel and it is imported without having to key in each donor's offering.

2. **Void Check screen:** It will make a General Journal Entry that appears on the Check Report with a negative number putting the money back into the bank account and the account or accounts that were charged on the original check.

3. **Up to 9 digits is allowed for Account #'s:** Enter up to 9 digit ID #'s in Edit Accounts. Or to convert old numbers to more digits, in properties set account ID's for number of digits wanted. Can have different number of digits for Conference and Local Funds.

4. **New Account "type" called Liabilities:** This new Account "type" makes it easier to track mortgages. Accounts with the Liabilities "type" will list on the Financial Summary and the Balance Sheet as a liability.

5. **NSF Check Reversal makes two General Journal entries:** – a negative deposit for the amount of the check and if an NSF check fee amount is keyed, the General Journal Entry will appear in the Checks Written and Bank Fees report.

6. **New Income Expense Report:** This report lists all local accounts with deposits as income for the time period selected and local accounts with checks as expense. The difference is listed at the bottom along with local funds beginning and ending balances.

7. **Balance Sheet Report:** This report lists the assets (bank accounts), liabilities, and total fund balances.
